## OECTA online equity survey Help us develop quality equity resources for you

We all know that an equitable and inclusive education system is critical to delivering a high quality education to all of our students. Our Catholic schools have always been guided by a deep and abiding sense of the worth and dignity of every individual.

Ontario's Equity and Inclusive Education Strategy, launched in 2009, helps educators across the province better identify and remove discriminatory biases and systemic barriers to student achievement. Research shows that when students feel welcomed and accepted in their school, they are more likely to succeed academically.

OECTA is conducting a survey of our members to identify what professional development support they need to

sustain equity and inclusive education in their schools.

The information gathered from this survey will be used to create workshops and resources that best meet the needs of Catholic teachers across the province, specifically pertaining to equity and inclusion in schools.

The survey will not take more than 15 minutes of your time, and will provide valuable information to the Association.

All responses are confidential.
